RE: Certification of Rate Comparability Review for Non-Rural Carriers Serving In Rural Areas In Delaware Public Service Commission - Docket 96-45

Dear Ms. Dortch and Ms. Majcher:

Pursuant to Section 54.316 of the Federal Communications Commission's ("FCC") rules, the Delaware Public Service Commission has reviewed the comparability of residential rates in rural areas of the State of Delaware served by non-rural incumbent local exchange carriers ("ILECs") to urban rates nationwide.

The Delaware Public Service Commission has determined that the rates charged by Verizon Delaware Inc, the State's sole ILEC, in the rural area of the State (which is limited to Sussex County) fall within the safe harbor provisions of the FCC's rules. The nationwide urban benchmark for rates in effect on July 1, 2005 is \$34.21. As demonstrated on Attachment 1 of this filing Verizon's rates applicable to Sussex County fall well below this benchmark.

Sincerely,

Constance A. Welde
Public Utilities Analyst
Delaware Public Service Commission

RE: Docket 96-45

Dear Ms. Dortch and Ms. Majcher:

There are no telecommunications carriers in Delaware that currently receive High Cost Loop Support, Local Switching Support or High Cost Model Support. Since there is no high cost support available to carriers in Delaware there is nothing to certify at this time.

In the future, should the high cost support universal support mechanism be modified and Delaware carriers become eligible to receive this support, the Delaware Public Service Commission will provide the pertinent certification.

Sincerely,

Constance A. Welde
Public Utilities Analyst
